Median income addresses the per household income in the county (no matter how many people live in the home); per capita income (inside table) is total income in the county divided by the number of people in the county.

The city of Anaconda was founded in 1883 by Marcus Daly, Montana's famous Copper King. Built after he died, Daly's Washoe Smelter was billed as the world's largest copper smelter. A golf course designed by golf legend Jack Nicklaus is built on the same site and includes relics from the old copper mine. The bunkers are filled with ebony-black sand, a by-product of the mine. Anaconda has preserved its historical district which includes the courthouse and Washoe Theater, listed in the National Register of Historic Places.

According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1865 and was one of the original nine territorial counties. At one time, it extended from the Beaverhead County line to the Canadian border.
